Submission Alias NPDES Sanitary Sewer Overflow (SSO) Event Report

SSO ID SSO-00212150

Submission ID HQE-3SCM-DC1ZH

Form Input

General Instructions

All publicly or privately owned wastewater treatment plants holding an NPDES permit are required to provide immediate notification to the Alabama Department of Environmental Management (ADEM), county public health officials, the public, and any other affected entity such as public water systems as soon as possible upon becoming aware of any notifiable sanitary sewer overflow (SSO) events.

A "notifiable SSO", as defined in ADEM Admin. Code r. 335-6-6-.02(hh), is an overflow, spill, release or diversion of wastewater from a sanitary sewer system that either (1) reaches a surface water of the State or (2) may imminently and substantially endanger human health based on potential for public exposure including but not limited to close proximity to public or private water supply wells or in areas where human contact would be likely to occur.

Immediate notification shall be provided within 24 hours of becoming aware of the event. This immediate notification may be made either verbally to the Department's SSO Hotline at (334) 274-4200 or electronically to the Department's Alabama Environmental Permitting and Compliance System (AEPACS) system. The follow-up report shall be submitted within five days of becoming aware of the SSO event using the Department's AEPACS system.

Special Note:

The Sanitary Sewer Overflow map allows users to see the locations of SSOs that have been reported to the Department. They are displayed on the map for 10 days after the SSO has ceased. The colors indicate the volume of the discharge.

Click on any dot on the map and a popup will display information about the SSO(s).

At the top of the popup that is displayed after clicking on a dot, there is a number that indicates the number of SSOs at that location. Users can cycle through them by clicking on the arrows at the top of the popup.

At the bottom of the popup is a link ("click for eFile") that will take users to SSOs reported from that facility. The eFile entries that appear are sorted by date from most recent to oldest and contain only SSO reports.

Users can zoom in and out by using the +/- buttons at the top left of the map, the scroll on their mouse, or by holding the Shift key down while clicking and dragging a box on the map to zoom in.

The Switch Basemap button at the top right of the page allows users to select a different basemap.
[Please also be aware that the SSOs reported to the Department will appear on a public map here.](#)

Processing

NOTE: You should choose the correct status for this SSO notification/report EACH time you submit a notification/report.

If you are able to complete all of the information in the first submittal, please indicate the status of  Submit both the Initial 24-hour notification and 5-day report concurrently."

Indicate which of the following describes the status of this SSO notification/report:

Submit Initial 24-hour notification

Prior to submitting this notification/report through AEPACS, did you make the first notification of this SSO to the Department by a method other than AEPACS (e.g. SSO Hotline, Fax, Email)?

No

Regardless of the notification method used to first notify the Department of this SSO event (i.e. AEPACS, SSO hotline, fax, etc), was the initial notification made to the Department within 24 hours of becoming aware of the event?

Yes

SSO Event - Information

Date/Time SSO Event Started:

Date	Time
07/15/2025	08:30 am

Is the SSO on-going?

No

Date/Time SSO Event Stopped:

Date	Time
07/15/2025	01:00 pm

Did the SSO occur during wet weather?

No

Was the SSO caused by an extreme weather event (e.g. hurricane) that flooded the ENTIRE sewer system?

No

Note:

If estimated volume discharged is known, the VALUE section should be completed. If you only select a RANGE, you should be aware that the estimated volume discharged will be considered to be the largest value of the range selected. Estimated volumes above 1,000,000 gallons must be entered as a VALUE.

Report Estimated Volume Discharged as
Value

Estimated Volume Discharged (in gallons)
10000

Indicate source of discharge event
Broken Line

County in which SSO occurred (check all that apply)
Mobile

Note

For detailed information on how to place a point on the map, please click the Map Help link below. Also, when reporting for an SSO(s) caused by an extreme weather event, please specify a general location for the SSO(s):
